Long-range plan of the Research Advisory Council, 48(7):659–661
Research abstracts, 48(11):1103–1105

ISSUE IS, THE

Are some occupational therapists in physical disability practice settings hastening the extinction of mental health practice? K Sladyk, 48(2):174–175
Austerity and the cadaver, CE Peterson, 48(1):87–88
Cognitive rehabilitation: Advancing the stature of occupational therapy, MV Radomski, 48(3):271–273
Increasing occupational therapy research: Is it time to try something new? L Timmerman, C Schmidt, SL Heater, 48(7):647–648
Is it not always time for new research ideas? NP Gillette, MD Mitcham, 48(7):649–650
Occupational therapist or activity therapist—Which do you choose to be? JL Darnell, SL Heater, 48(5):467–468
Occupational therapy as art and science: Should the older definition be reclaimed? SM Peloquin, 48(11):1083–1096
Occupational therapy in neonatology: What is our ethical responsibility? ME Anzalone, 48(6):563–566
Professionalization of the field: How can educational programs identify the best applicants? BD Isenburg, SL Heater, 48(8):758–759
Shortage of occupational therapy and physical therapy personnel in schools: Implications and actions, JE Whitworth, 48(4):367–370
Should certified occupational therapy assistants provide occupational therapy services independently? H Hirama, 48(9):840–843
Should occupational therapy choose a single functional outcome measure? CA Velozo, 48(10):946–947

LETTERS TO THE EDITOR

ADL evaluations in long-term care facilities, DL Karplus, 48(11):1112
Attempts to study Ross's Five-Stage Group Program are welcome, M Ross, 48(11):1112
Compliments for special issue on critical issues in functional assessment, S Butterbaugh, 48(8):760
Continuing school occupational therapy services is a team decision, M Struck, 48(2):176
Extinction of mental health practice? M MacNeill, 48(9):855
Flow chart helps in deciding whether school occupational therapy services should be continued, VM Bell, 48(2):176–177 [Author's response, SG Nesbit, 48(2):177]
Negative images in psychosocial occupational therapy, KA Zarwell, 48(1):89 [Author's response, S Price, 48(1):89]
Occupational therapists have experience in job analysis and pain management, L Weber, 48(10):951
Occupational therapy students need good anatomy courses, MP Lee, 48(9):855
Special issue on feminism stimulates wide discussion, B Francis-Connolly, 48(1):89
Treat parents of a child with special needs as members of team, H Minshull, 48(10):951 [Author's response, C Brollier, J Shepherd, KF Markley, 48(10):951]

LOOKING BACK

Bridging conflicting ideologies: The origins of American and British occupational therapy, RL Schemm, 48(11):1082–1088
Moral treatment: How a caring practice lost its rationale, SM Peloquin, 48(2):167–173

NATIONALLY SPEAKING

Accepting the challenge of outcome research: Examining the effectiveness of occupational therapy practice, JC Rogers, MB Holm, 48(10):871–876
Cultural connections: A challenge unmet, C Mirkopoulos, MM Evert, 48(7):583–585
Evolution of occupational therapy practice for infants in the neonatal intensive care unit, D Gorga, 48(6):487–489
Status of brain injury rehabilitation, GM Giles, 48(3):199–205

REVIEWER'S GUIDE

Reviewer's guide, 48(4):373; 48(10):953

Subject Index

A

ACQUIRED IMMUNODEFICIENCY SYNDROME
Mandatory HIV testing and occupational therapists, 48(1):27–37
ACTIVITIES OF DAILY LIVING
Assessment of motor and process skills of persons with psychiatric disorders, 48(9):775–780
Case Report—Functional effect of bilateral tendon transfers on a person with C-5 quadriplegia, 48(8):750–757
Clinical interpretation of "Performance of Typical Children on the Sensory Profile: An Item Analysis," 48(11):975
Future time perspective and daily occupations of persons with chronic schizophrenia in a board and care home, 48(1):7–18
Meal preparation treatment protocol for adults with brain injury, 48(5):431–438
Performance of typical children on the sensory profile: An item analysis, 48(11):967–974
ACTIVITIES OF DAILY LIVING EVALUATION
Activities of daily living capabilities and values of long-term-care facility residents, 48(8):710–716
Case Report—Documenting functional outcomes, 48(10):939–945
Clinical interpretation of "The Assessment of Motor and Process Skills of Persons With Psychiatric Disorders," 48(9):781–782
Comparing motor and process ability of persons with suspected dementia in home and clinic settings, 48(8):689–696
Using the assessment of motor and process skills to compare occupational performance between clinic and home settings, 48(8):697–709
ADAPTATION, TEMPORAL
Future time perspective and daily occupations of persons with chronic schizophrenia in a board and care home, 48(1):7–18
ADAPTATIONS
Finding your way in the maze of computer access technology, 48(2):121–129
AGING
Implications of the Americans With Disabilities Act of 1990 for elderly persons, 48(1):73–81
AMERICAN OCCUPATIONAL THERAPY ASSOCIATION
Association, The
Career exploration and development: A companion guide to the *Occupational Therapy Roles* document, 48(9):844–851
Executive Board conference calls, September 22, 1993, December 14, 1993, and January 13, 1994, 48(7):657–658
Executive Board conference call, April 11, 1994, 48(11):1098
Executive Committee conference calls, November 15, 1993, and January 11, 1994, 48(7):657–658
Summary of Executive Board minutes, August 11–14, 1993, 48(7):651–654
Summary of Executive Board minutes, November 14–16, 1993, 48(7): 654–657
Summary of Executive Board minutes, March 18–20, 1994, 48(11):1098–1102
Award
1994 Awards and Recognitions Recipients, 48(11):1097–1098
Business meeting, minutes
The 1994 annual business meeting, 48(11):1077–1079
Educational programs
Listing of educational programs in occupational therapy, 48(11):1060–1070
Foundation, The
Activities of the Research Advisory Council, 48(7):659
Long-range plan of the Research Advisory Council, 48(7):659–661
Research abstracts, 48(11):1103–1105
Official documents
Association policies, 48(11):1071–1073
Guide for supervision of occupational therapy personnel, 48(11):1045–1046
Occupational therapy code of ethics, 48(11):1037–1038
Official documents of the American Occupational Therapy Association, Inc., 48(11):1080
Position paper: Occupational therapy and long-term services and supports, 48(11):1035–1036
Rescinded documents, 48(11):1081
Standards of practice for occupational therapy, 48(11):1039–1043
Statement: Occupational therapy services for persons with Alzheimer's disease and other dementias, 48(11):1029–1031
Statement of occupational therapy referral, 48(11):1034
Uniform terminology for occupational therapy—third edition, 48(11):1047–1054
Uniform terminology—third edition: Application to practice, 48(11):1055–1059
Representative assembly
The 1994 Representative Assembly summary of minutes, 48(11):1074–1076
ARRHYTHMIA
Brief or New—Supporting suck–swallow–breath coordination during nipple feeding, 48(6):561–562
ARTHRITIS
Grasp pattern variations seen in the scleroderma hand, 48(1):46–54
ASSESSMENT PROCESS, OCCUPATIONAL THERAPY
Interrater reliability of the Peabody Developmental Motor Scales: Fine motor scale, 48(11):976–981
Measuring perceived self-efficacy in occupational therapy, 48(9):783–790
ATTITUDE
Effect of occupational therapy education on students' perceived attitudes toward persons with disabilities, 48(7):633–638

B

BEHAVIOR THERAPY
Case Report—Improving functional independence in a patient with encephalitis through behavior modification shaping techniques, 48(3):259–262
BRAIN INJURIES
Brief or New—Cognitive rehabilitation service provision: Results of a survey of practitioners, 48(2):163–166
Brief or New—Family recovery: An insider's view, 48(3):257–258
COMPETE: A model for vocational evaluation, training, employment, and community for integration for persons with cognitive impairments, 48(5):446–451
Effects of different treatment activities on functional fine motor coordination in adults with brain injury, 48(10):877–882
Functional performance of young children after traumatic brain injury: A 6-month follow-up study, 48(3):211–218
Helping factors in a peer-developed support group for persons with head injury, part 1: Participant observer perspective, 48(4):297–304
Helping factors in a peer-developed support group for persons with head injury, part 2: Survivor interview perspective, 48(4):305–309
Meal preparation treatment protocol for adults with brain injury, 48(5):431–438
Neglect in three dimensions, 48(3):206–210
Neurobiology of learning: Implications for treatment of adults with brain injury, 48(5):421–430
Perceptual retraining for adults with diffuse brain injury, 48(3):225–233
Using research literature to develop a perceptual retraining treatment protocol, 48(1):62–72

C

CAREER PLANNING
Commentary on "Strategies for Negotiating Preemployment Agreements," 48(9):832–835
Strategies for negotiating preemployment agreements, 48(9):824–831
CAREGIVERS
Management decisions made by caregiver spouses of persons with Alzheimer's disease, 48(1):38–45

CEREBROVASCULAR DISORDERS
Adaptation to a stroke: The experience of one couple, 48(11):1006–1013
Brief or New—Cognitive rehabilitation service provision: Results of a survey of practitioners, 48(2):163–166
Cerebrovascular accident: Relationship of demographic, diagnostic, and occupational therapy antecedents to rehabilitation outcomes, 48(10):906–913
CHILD
Defining the specialization of pediatric occupational therapy, 48(9):791–802
COGNITION DISORDERS
Brief or New—Cognitive rehabilitation service provision: Results of a survey of practitioners, 48(2):163–166
Technology for adults with multiple impairments: A trilogy of case reports, 48(4):341–345
COMMUNITY MENTAL HEALTH SERVICES
Future time perspective and daily occupations of persons with chronic schizophrenia in a board and care home, 48(1):7–18
COMMUNITY OCCUPATIONAL THERAPY
Use of occupational therapists in independent living programs, 48(2):105–112
COMPENSATORY MOVEMENT
Brief or New—Supporting suck–swallow–breath coordination during nipple feeding, 48(6):561–562
COMPETENCE
Defining the specialization of pediatric occupational therapy, 48(9):791–802
COMPUTERS
Finding your way in the maze of computer access technology, 48(2):121–129
CONTINUING EDUCATION
Brief or New—Adult learning through case simulation, 48(11):1089–1092
Developing competency in the neonatal intensive care unit: A hospital training program, 48(6):539–545
CONTRACTURE
Effects of casting on upper extremity motor disorders after brain injury, 48(3):219–224
CURRICULUM
Perceived stressors and coping strategies of occupational therapy students, 48(11):1022–1028
CURRICULUM DESIGN
Content for educational programs in school-based occupational therapy from a practice perspective, 48(2):130–137

D

DELIVERY OF HEALTH CARE
Comparison of individual and group/consultation treatment methods for preschool children with developmental delays, 48(2):155–161
DEMENTIA
Case Report—Documenting functional outcomes, 48(10):939–945
Comparing motor and process ability of persons with suspected dementia in home and clinic settings, 48(8):689–696
DISABILITY EVALUATION
Role change after traumatic brain injury in adults, 48(3):241–246

E

EATING AND FEEDING EVALUATION
Use of substitute food textures for standard eating assessment in children with cerebral palsy and children without disabilities, 48(7):626–632
EDUCATION, CONTINUING
Occupational therapy refresher course: A 5-year follow-up report, 48(1):82–86
EDUCATION, GRADUATE, OCCUPATIONAL THERAPY
Using audioteleconferencing to link occupational therapy graduate students in the United States and Canada, 48(7):619–625
EDUCATION, OCCUPATIONAL THERAPY
Prediction model of performance in level II fieldwork in physical disabilities, 48(10):926–931
EDUCATIONAL STATUS
Prediction model of performance in level II fieldwork in physical disabilities, 48(10):926–931
ENERGY CONSERVATION (WORK SIMPLIFICATION)
Baltimore Therapeutic Equipment work simulator: Biomechanical and physiological norms for three attachments in healthy men, 48(1):19–25
ENVIRONMENT
Comparing motor and process ability of persons with suspected dementia in home and clinic settings, 48(8):689–696
Ecology of human performance: A framework for considering the effect of context, 48(7):595–607
Using the assessment of motor and process skills to compare occupational performance between clinic and home settings, 48(8):697–709
ENVIRONMENT, PHYSICAL
Ethnographic analysis: A study of classroom environments, 48(5):397–402
ENVIRONMENTAL STIMULATION
Efficacy of a sensory integration program on behaviors of inpatients with dementia, 48(4):355–360
EQUILIBRIUM
Vestibular rehabilitation improves daily life function, 48(10):919–925
ETHICS, OCCUPATIONAL THERAPY
Mandatory HIV testing and occupational therapists, 48(1):27–37

F

FAMILY
Adaptation to a stroke: The experience of one couple, 48(11):1006–1013
Parent and occupational therapist collaboration in the neonatal intensive care unit, 48(6):535–538 [Correction, 48(8):760]
FIELDWORK, OCCUPATIONAL THERAPY, LEVEL II
Competency-based training program in early intervention, 48(4):361–366
FRACTURES
Brief or New—Use of air bag splints to increase supination and pronation in the arm, 48(8):746–749
FUNCTIONAL TRAINING
Case Report—Functional effect of bilateral tendon transfers on a person with C-5 quadriplegia, 48(8):750–757

G

GERIATRIC PSYCHIATRY
Three images of interdisciplinary team meetings, 48(8):717–722
GROSS AND FINE MOTOR EVALUATION
Relationship between visuomotor and handwriting skills of children in kindergarten, 48(11):892–988

H

HAND FUNCTIONS
Case Report— Comparison of three myoelectrically controlled prehensors and the voluntary-opening split hook, 48(10):932–937
Grasp pattern variations seen in the scleroderma hand, 48(1):46–54
Orthotic intervention for development of hand function with C-6 quadriplegia, 48(2):138–144
HANDICAPPED
Dreams, dilemmas, and decisions for occupational therapy practice in a new millennium: A Canadian perspective, 48(7):590–594
HANDS
Brief or New—Effect of cancer diagnosis and treatment on hand function, 48(9):836–839
HEAD INJURIES
Effects of casting on upper extremity motor disorders after brain injury, 48(3):219–224
HEALTH
Dreams, dilemmas, and decisions for occupational therapy practice in a new millennium: An American perspective, 48(7):586–589
HEALTH POLICY
Dreams, dilemmas, and decisions for occupational therapy practice in a new millennium: An American perspective, 48(7):586–589
HISTORY OF OCCUPATIONAL THERAPY
Looking Back—Bridging conflicting ideologies: The origins of American and British occupational therapy, (48)11:1082–1088

Looking Back—Moral treatment: How a caring practice lost its rationale, 48(2):167–173
HOLISTIC HEALTH
Caring occupational therapist: Scope of professional roles and boundaries, 48(11):997–1005
HUMAN ACTIVITIES AND OCCUPATIONS
Dreams, dilemmas, and decisions for occupational therapy practice in a new millennium: A Canadian perspective, 48(7):590–594
Looking Back—Bridging conflicting ideologies: The origins of American and British occupational therapy, 48(11):1082–1088
HUMAN DEVELOPMENT
Prediction of preschool sensory and motor performance by 18-month neurologic scores among children born prematurely, 48(5):391–396
HUMAN OCCUPATION MODEL
Volition as narrative: Understanding motivation in chronic illness, 48(4):311–317

I

INDEPENDENT LIVING SKILLS
Meal preparation treatment protocol for adults with brain injury, 48(5):431–438
Transition from school to community living, 48(4):346–353
INDEPENDENT LIVING SKILLS (HUMAN ACTIVITIES)
Case Report—Improving functional independence in a patient with encephalitis through behavior modification shaping techniques, 48(3):259–262
INDUSTRIAL THERAPY
Work hardening: Past, present, and future—The Work Programs Special Interest Section National Work-Hardening Outcome Study, 48(4):327–339
INFANT
Functional performance of young children after traumatic brain injury: A 6-month follow-up study, 48(3):211–218
INFANT, HIGH RISK
Developing competency in the neonatal intensive care unit: A hospital training program, 48(6):539–545
Effect of oral support on sucking efficiency in preterm infants, 48(6):490–498
Global perspective on feeding assessment in the neonatal intensive care unit, 48(6):514–526
Infant mental health in occupational therapy practice in the neonatal intensive care unit, 48(6):499–505
Influence of neonatal intensive care unit caregiving practices on motor functioning of preterm infants, 48(6):527–533
Medical considerations and practice guidelines for the neonatal occupational therapist, 48(6):546–560
Parent and occupational therapist collaboration in the neonatal intensive care unit, 48(6):535–538 [Correction, 48(8):760]
INFANT, LOW BIRTH WEIGHT
Infant mental health in occupational therapy practice in the neonatal intensive care unit, 48(6):499–505
Influence of neonatal intensive care unit caregiving practices on motor functioning of preterm infants, 48(6):527–533
Medical considerations and practice guidelines for the neonatal occupational therapist, 48(6):546–560
Neurobehavioral assessment of high-risk infants in the neonatal intensive care unit, 48(6):506–513
Parent and occupational therapist collaboration in the neonatal intensive care unit, 48(6):535–538 [Correction, 48(8):760]
Predicting outcome in high-risk newborns with a neonatal neurobehavioral assessment, 48(8):723–732
Somatosensory processing abilities of very low–birth weight infants, at school age, 48(7):639–645
INFANT, NEWBORN
Global perspective on feeding assessment in the neonatal intensive care unit, 48(6):514–526
Neurobehavioral assessment of high-risk infants in the neonatal intensive care unit, 48(6):506–513
Predicting outcome in high-risk newborns with a neonatal neurobehavioral assessment, 48(8):723–732
INSTITUTIONALIZATION
Technology for adults with multiple impairments: A trilogy of case reports, 48(4):341–345

J

JOB SATISFACTION (ATTITUDE)
Flow and the occupational therapy practitioner, 48(11):989–996

K

KITCHEN EQUIPMENT, ADAPTED
Brief or New—Increasing the accessibility of a conventional cooking range for wheelchair users, 48(5):463–466

L

LEARNING DISORDERS
COMPETE: A model for vocational evaluation, training, employment, and community for integration for persons with cognitive impairments, 48(5):446–451
LEARNING STYLE
Successful fieldwork student: Supervisor perceptions, 48(9):817–823
LONG-TERM CARE
Activities of daily living capabilities and values of long-term-care facility residents, 48(8):710–716
After rehabilitation: Meeting the long-term needs of persons with traumatic brain injury, 48(3):251–255

M

MATURATION
Brief or New—Supporting suck–swallow–breath coordination during nipple feeding, 48(6):561–562
MEDICAL ONCOLOGY
Brief or New—Effect of cancer diagnosis and treatment on hand function, 48(9):836–839
MEMORY
Motor learning and occupational therapy: The organization of practice, 48(9):810–816
MENTAL DISORDERS
Looking Back—Moral treatment: How a caring practice lost its rationale, 48(2):167–173
Volition as narrative: Understanding motivation in chronic illness, 48(4):311–317
Volitional narratives and the meaning of therapy, 48(4):319–326
MENTAL RETARDATION
COMPETE: A model for vocational evaluation, training, employment, and community for integration for persons with cognitive impairments, 48(5):446–451
MOBILITY
Case Report—Combined intervention of therapy and bromocriptine mesylate to improve functional performance after brain injury, 48(3):263–270
MODALITIES, OCCUPATIONAL THERAPY
Approaches to treating dysphagia in patients with brain injury, 48(3):235–239
Perceptual retraining for adults with diffuse brain injury, 48(3):225–233
MOTOR CONTROL
Motor behavior research: Implications for therapeutic approaches to central nervous system dysfunction, 48(8):733–745
Motor learning and occupational therapy: The organization of practice, 48(9):810–816
MOTOR SKILLS
Prosthesis training as a context for studying occupational forms and motoric adaptation, 48(1):55–61
MUSCLE SPASTICITY
Effects of casting on upper extremity motor disorders after brain injury, 48(3):219–224
MYOELECTRICS
Case Report— Comparison of three myoelectrically controlled prehensors and the voluntary-opening split hook, 48(10):932–937

N

NEURODEVELOPMENTAL THERAPY
Motor behavior research: Implications for therapeutic approaches to central nervous system dysfunction, 48(8):733–745

NEUROLOGIC MANIFESTATIONS
Illness behavior after severe brain injury: Two case reports, 48(3): 247–250

O

OCCUPATIONAL THERAPY
Occupational cumulative trauma disorders of the upper extremity, 48(5):411–420
OCCUPATIONAL THERAPY SERVICES
Brief or New – Cognitive rehabilitation service provision: Results of a survey of practitioners, 48(2):163–166
Current practice among NeuroDevelopmental Treatment Association members, 48(9):803–809
OCCUPATIONAL THERAPY (TREATMENT)
Effects of continuous passive motion on the edematous hands of two persons with flaccid hemiplegia, 48(5):403–409
OCCUPATIONS
Clinical interpretation of "The Relationship Between Occupational Form and Occupational Performance: A Kinematic Perspective," 48(8):688
Management decisions made by caregiver spouses of persons with Alzheimer's disease, 48(1):38–45
Occupational cumulative trauma disorders of the upper extremity, 48(5):411–420
Relationship between occupational form and occupational performance: A kinematic perspective, 48(8):679–687
ORAL MOTOR ASSESSMENT
Use of substitute food textures for standard eating assessment in children with cerebral palsy and children without disabilities, 48 (7):626–632
ORAL MOTOR FUNCTION
Effect of oral support on sucking efficiency in preterm infants, 48(6): 490–498
ORTHOPEDICS
Interdisciplinary team approach in the rehabilitation of hip and knee arthroplasties, 48(5):439–445
ORTHOTICS AND PROSTHETICS EVALUATION
Orthotic intervention for development of hand function with C-6 quadriplegia, 48(2):138–144
OUTCOME AND PROCESS ASSESSMENT (HEALTH CARE)
Effect of music on repetitive disruptive vocalizations of persons with dementia, 48(10):883–889
OUTCOME STUDY
Enhancing occupational performance through an understanding of perceived self-efficacy, 48(5):452–461
Prediction of preschool sensory and motor performance by 18-month neurologic scores among children born prematurely, 48(5):391–396

P

PATIENT EDUCATION
Occupational cumulative trauma disorders of the upper extremity, 48(5):411–420
Reinjury prevention follow-through for clients with cumulative trauma disorders, 48(10):890–898
PEDIATRIC OCCUPATIONAL THERAPY
Interrater reliability of the Peabody Developmental Motor Scales: Fine motor scale, 48(11):976–981
PEDIATRICS
Comparison of individual and group/consultation treatment methods for preschool children with developmental delays, 48(2):155–161
PERCEPTION
Perceptual retraining for adults with diffuse brain injury, 48(3):225–233
Using research literature to develop a perceptual retraining treatment protocol, 48(1):62–72
PERCEPTUAL DISORDERS
Brief or New – Cognitive rehabilitation service provision: Results of a survey of practitioners, 48(2):163–166
PERSONALITY
Illness behavior after severe brain injury: Two case reports, 48(3): 247–250
PHYSICAL THERAPY
Occupational cumulative trauma disorders of the upper extremity, 48(5):411–420
PLANNING PROCESS, OCCUPATIONAL THERAPY
Three images of interdisciplinary team meetings, 48(8):717–722
PROFESSIONAL PRACTICE
Defining the specialization of pediatric occupational therapy, 48(9): 791–802
Doing occupational therapy: Dimensions of satisfaction and dissatisfaction, 48(2):145–154
Dreams, dilemmas, and decisions for occupational therapy practice in a new millennium: An American perspective, 48(7):586–589
PROSTHESIS
Case Report – Comparison of three myoelectrically controlled prehensors and the voluntary-opening split hook, 48(10):932–937

Q

QUALITATIVE METHOD
Caring occupational therapist: Scope of professional roles and boundaries, 48(11):997–1005
Doing occupational therapy: Dimensions of satisfaction and dissatisfaction, 48(2):145–154

R

RANGE OF MOTION
Brief or New – Use of air bag splints to increase supination and pronation in the arm, 48(8):746–749
REACHING
Clinical interpretation of "The Relationship Between Occupational Form and Occupational Performance: A Kinematic Perspective," 48(8):688
Relationship between occupational form and occupational performance: A kinematic perspective, 48(8):679–687
REFERRAL AND CONSULTATION
Case Report – Documenting functional outcomes, 48(10):939–945
REHABILITATION
Case Report – Functional effect of bilateral tendon transfers on a person with C-5 quadriplegia, 48(8):750–757
REHABILITATION, GERIATRIC
Stability and change in functional assessment of patients with geropsychiatric disorders, 48(10):914–918
RELIABILITY OF TESTS
Person–environment assessments in occupational therapy, 48(7): 608–618
RESEARCH
Use of occupational therapists in independent living programs, 48(2): 105–112
ROLE
Illness behavior after severe brain injury: Two case reports, 48(3): 247–250
ROLE DELINEATION
Caring occupational therapist: Scope of professional roles and boundaries, 48(11):997–1005

S

SCHOOL-BASED OCCUPATIONAL THERAPY
Ethnographic analysis: A study of classroom environments, 48(5): 397–402
Transition from school to community living, 48(4):346–353
SELF CARE
Case Report – Combined intervention of therapy and bromocriptine mesylate to improve functional performance after brain injury, 48(3):263–270
SELF-HELP GROUPS
Helping factors in a peer-developed support group for persons with head injury, part 1: Participant observer perspective, 48(4):297–304
Helping factors in a peer-developed support group for persons with head injury, part 2: Survivor interview perspective, 48(4):305–309
SEMINARS AND WORKSHOPS
Medical residents' education about occupational therapy: Implications for referral, 48(11):1014–1021
SENSATION
Clinical interpretation of "Performance of Typical Children on the

Sensory Profile: An Item Analysis," 48(11):975
Performance of typical children on the sensory profile: An item analysis, 48(11):967–974
SENSORY INTEGRATION
Clinical interpretation of "Performance of Typical Children on the Sensory Profile: An Item Analysis," 48(11):975
Performance of typical children on the sensory profile: An item analysis, 48(11):967–974
Somatosensory processing abilities of very low–birth weight infants, at school age, 48(7):639–645
SINGLE SUBJECT RESEARCH
Effects of continuous passive motion on the edematous hands of two persons with flaccid hemiplegia, 48(5):403–409
SOCIAL ADJUSTMENT
Role change after traumatic brain injury in adults, 48(3):241–246
SOCIAL DEVELOPMENT
Play and preschool children with autism, 48(2):113–120
SOCIAL ENVIRONMENT
Adaptation to a stroke: The experience of one couple, 48(11):1006–1013
SOCIALIZATION
Competency-based training program in early intervention, 48(4):361–366
SPATIAL BEHAVIOR
Neglect in three dimensions, 48(3):206–210
SPINAL CORD INJURIES
Case Report—Functional effect of bilateral tendon transfers on a person with C-5 quadriplegia, 48(8):750–757
Orthotic intervention for development of hand function with C-6 quadriplegia, 48(2):138–144
STRESS MANAGEMENT TRAINING
Perceived stressors and coping strategies of occupational therapy students, 48(11):1022–1028
STUDENTS
Commentary on "Strategies for Negotiating Preemployment Agreements," 48(9):832–835
Effect of occupational therapy education on students' perceived attitudes toward persons with disabilities, 48(7):633–638
Strategies for negotiating preemployment agreements, 48(9):824–831
SUCKING BEHAVIOR
Effect of oral support on sucking efficiency in preterm infants, 48(6):490–498
SURGERY, OPERATIVE
Case Report—Functional effect of bilateral tendon transfers on a person with C-5 quadriplegia, 48(8):750–757

T

TESTS, BY TITLE, JEBSEN-TAYLOR TEST OF HAND FUNCTION
Effects of different treatment activities on functional fine motor coordination in adults with brain injury, ME Neistadt, 48(10):877–882
TESTS, BY TITLE, MILLER ASSESSMENT FOR PRESCHOOLERS
Prediction of preschool sensory and motor performance by 18-month neurologic scores among children born prematurely, 48(5):391–396
TRANSFER EVALUATION
Change in wheelchair transfer performance during rehabilitation of men with cerebrovascular accident, 48(10):899–905

V

VALIDITY OF TESTS
Person–environment assessments in occupational therapy, 48(7):608–618
VESTIBULAR DISORDERS
Vestibular rehabilitation improves daily life function, 48(10):919–925
VESTIBULAR STIMULATION
Vestibular rehabilitation improves daily life function, 48(10):919–925

W

WORK
Baltimore Therapeutic Equipment work simulator: Biomechanical and physiological norms for three attachments in healthy men, 48(1):19–25
WOUNDS AND INJURIES
Work hardening: Past, present, and future—The Work Programs Special Interest Section National Work-Hardening Outcome Study, 48(4):327–339
